

The Re·Possible Perspective

A signature way of seeing, shaping, and stewarding what comes next.

01

THE LENS

How we see

Future Forward · Human Centered · Value Enabled

02

THE DIFFERENCE

How we think

Responsible → Possible → Re·Possible

03

THE COMPASS

How we navigate

A practical tool for responsible transformation

04

THE SIX

How we act

Six questions translating possibility into value

See differently. Imagine responsibly. Design for people. Realize meaningful value.

The Re•Possible Lens™

Future Forward. Human Centered. Value Enabled.

01

RESPONSIBLE

Steward what should be

Trust • Ethics • Safety • Equity • Accountability

02

POSSIBLE

Imagine what could be

Innovation • Opportunity • New models • Expanded potential

03

RE•POSSIBLE

Design what can become

Redesign conditions for better human outcomes

FUTURE FORWARD

HUMAN CENTERED

VALUE ENABLED

A signature identity lens for shaping a more human future of health.

Responsible asks what should be done. *Possible* explores what could be done. *Re•Possible* changes the conditions for what can become.

The Re•Possible Difference™

Three distinct ways of seeing transformation.

RESPONSIBLE

What should be done?

Steward innovation with trust, ethics, safety, equity, and accountability.

Example: Use AI safely and transparently.

POSSIBLE

What could be done?

Explore new opportunities, models, and capabilities enabled by intelligence and innovation.

Example: Improve scheduling, triage, or workflow with AI.

RE•POSSIBLE

What can become if we design differently?

Redesign the conditions around people, systems, and care so better human outcomes become possible.

Example: Reimagine access so patients no longer navigate system complexity alone.

FUTURE FORWARD

HUMAN CENTERED

VALUE ENABLED

Identity Lens

Technology creates capability. *Design* creates possibility. *Stewardship* turns possibility into value.

The Re•Possible Compass™

A practical decision tool for responsible transformation.

HOW TO USE THE COMPASS

01
SEE THE FUTURE
Scan signals, trends,
and emerging needs.

02
GROUND IN PURPOSE
Clarify intent, align with
values, and protect trust.

03
STEWARD RESPONSIBILITY
Assess impact, mitigate risk,
and act with care.

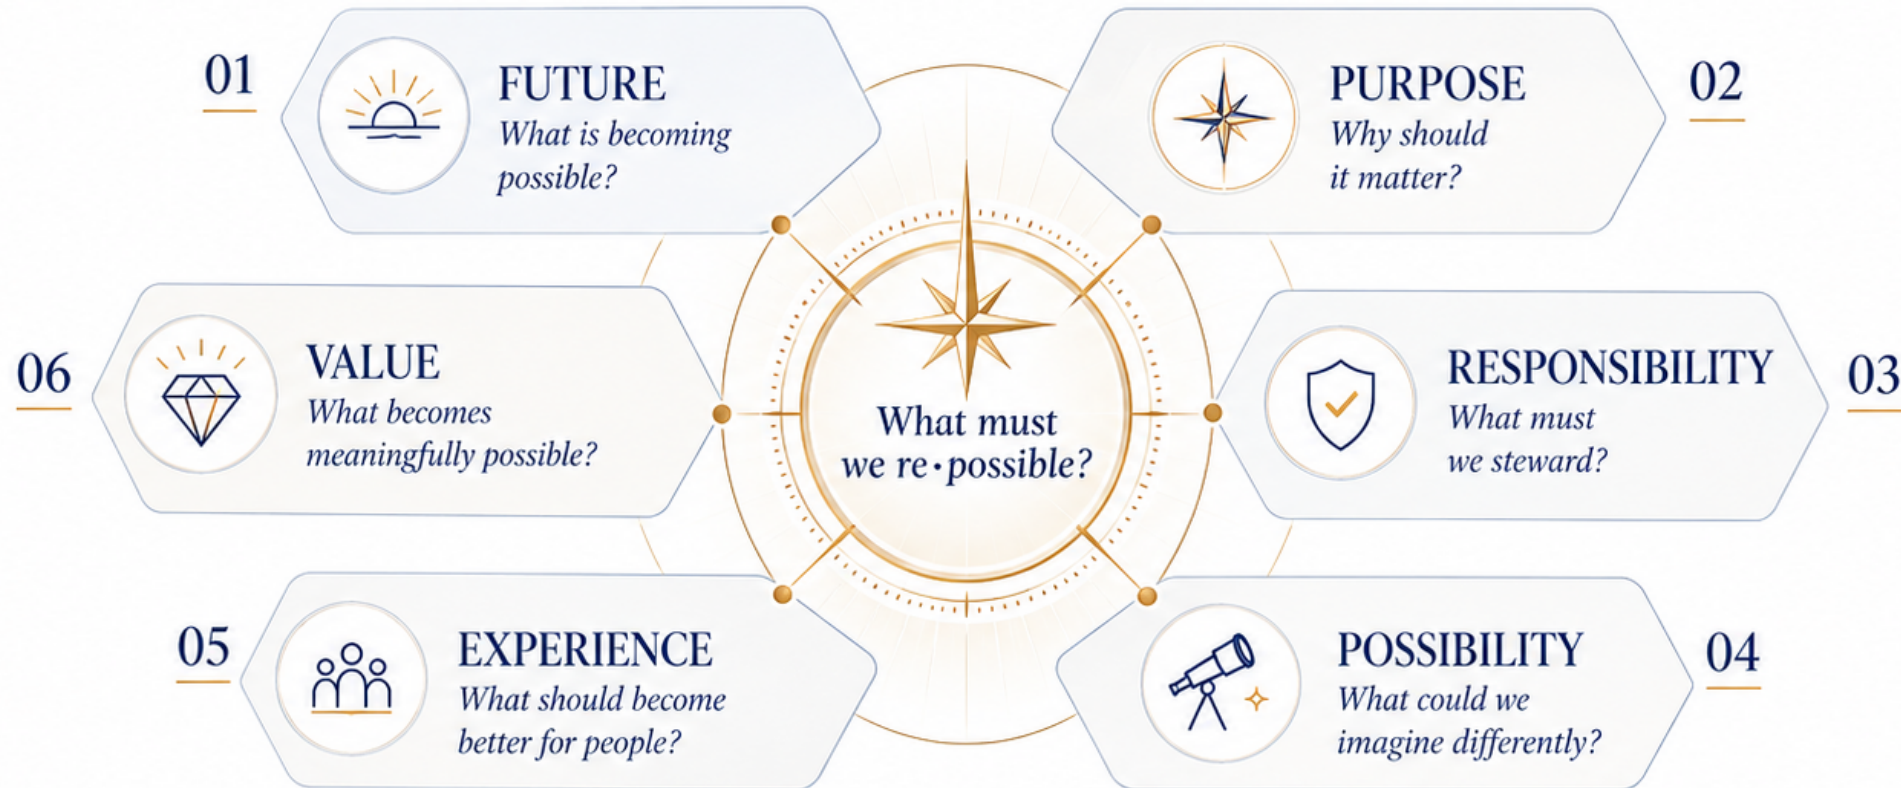

04
DESIGN FOR VALUE
Create solutions that deliver
meaningful human outcomes.

Use the Re•Possible Compass™ to move from emerging capability to meaningful human value.

The Re·Possible Six™

Six questions for shaping a more human future of health.

FUTURE FORWARD
= Future + Possibility

HUMAN CENTERED
= Purpose + Experience + Responsibility

VALUE ENABLED
= Value

A signature inquiry model for translating possibility into responsible action and realized value.
